Dated: 12th November 2017

PRESS RELEASE

This is to inform you that as per protocol after a team is selected for a category, our age verification team confirms the age of the players and requests for the age-related documents for the final approval from my office and for onward submission to BCCI. For players that have not provided a birth certificate registered within one year of birth, we ask for further documents. It appears that the father of one of the players in the Under 14 team has submitted medical certificates/letters from a nursing home specifying the date of birth of the player. My office spoke with the Doctor who purportedly issued the medical certificate and was informed that the letter had not been issued or signed by her. Considering this, I have no other option but to withdraw the name of player from the Under 14 squad. DDCA is exploring further civil/criminal action for submitting these documents.

Justice (Retd.) Vikramajit Sen
